

ENOFERM AMH™

(ASSMANNSHAUSEN)

Saccharomyces cerevisiae

For spicy and fruity red wines

DESCRIPTION

ENOFERM AMH™ is a German isolate yeast originating from the culture collection of the Department of Biochemistry and Microbiology, Geisenheim Research Institute, Germany. A slow and steady fermenter used in red wine fermentation for good color extraction.

BENEFITS & RESULTS

With its slow and steady fermentation kinetics and its specific properties, ENOFERM AMH™ allows a good extraction from skins, especially in Pinot noir vinification and is a color-friendly yeast. Wine made with ENOFERM AMH™ are described with enhanced spiciness and fruit aroma.

PROPERTIES*

- Classified as *Saccharomyces cerevisiae*
- Optimum fermentation temperature range: 20-30 °C
- Alcohol tolerance up to 15% v/v
- Low fermentation rate
- Competitive ("Killer K2") factor sensitive
- Medium nutritional requirement
- Low H₂S production
- Low foam formation
- Settles well for the wine to be racked off compact lees

*subject to fermentation conditions

INSTRUCTIONS FOR OENOLOGICAL USE

A. Rehydration without yeast protector

Dosage rate: 20 to 40 g/hL

1. Rehydrate the yeast in 10 times its weight in water (temperature between 35 °C and 40 °C).
2. Resuspend the yeast by gently stirring and wait for 20 minutes.
3. Mix the rehydrated yeast with a little juice/must, gradually adjusting the yeast suspension temperature to within 5-10 °C of the juice/must temperature.
4. Inoculate into the must.

B. Rehydration with a yeast protector

In musts with high alcohol potential (> 13% v/v), with low turbidity (< 80 NTU) or other challenging conditions, the use of one of our GO-FERM™ products (wine yeast protector) during yeast rehydration is recommended. Follow rehydration instructions according to the selected GO-FERM™ product.

+ Notes:

The total rehydration time should not exceed 45 minutes. It is crucial that a clean container is used to rehydrate the yeast. Rehydration directly in must is generally not advisable.

PACKAGING AND STORAGE

- Available in 500 g and 10 kg
- Store in a cool dry place
- To be used once opened
